Anti-Refuge "Rocky Flats Public Health Advocates" claims to represent Refuge neighbors AGAINST the Rocky Mountain Greenway (and the Refuge) on July 15th

As you all know, a contentious study session by the Westminster City Council will start at 6:30 PM on Monday night. Anti-nuclear groups have been CLAIMING to speak for Refuge neighbors for 15 years, but of their supporters are mostly from elsewhere: see <https://rockyflatsneighbors.org/whom-do-anti-refuge-groups-represent/> (<https://rockyflatsneighbors.org/whom-do-anti-refuge-groups-represent/>)

"Rocky Flats Public Health Advocates is a voice for the public visiting the Rocky Flats National Wildlife Refuge or living or visiting locations downwind of the Refuge," according to Randy Stafford. This group has no legal standing, and appears to have been made up by Mr. Stafford to attach his name to a federal anti-Greenway lawsuit (<https://rockyflatsneighbors.org/doomed-new-lawsuit-will-waste-tens-of-thousands-of-taxpayer-dollars/> (<https://rockyflatsneighbors.org/doomed-new-lawsuit-will-waste-tens-of-thousands-of-taxpayer-dollars/>))

If this eats your lunch, don't forget to fill out the pro-Greenway survey at

(https://docs.google.com/forms/d/e/1FAIpQLScJeWP7a1_3lyC0SVTmZKXARcVyLWtcCOR3a9PNmXCxdpsS2A/viewform)

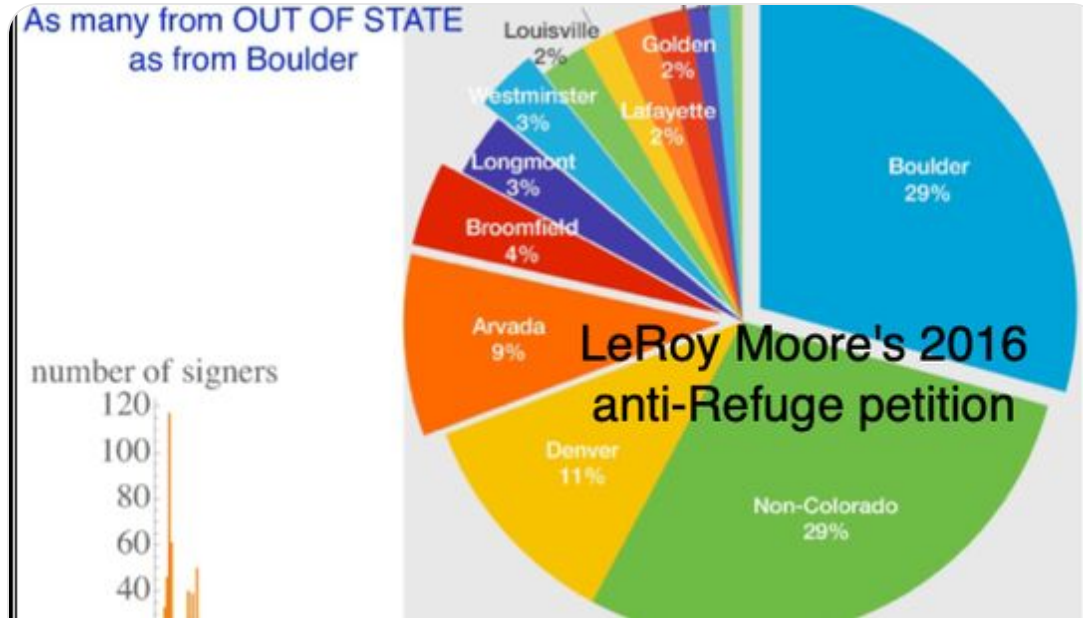

However you feel, the survey WILL represent actual Refuge neighbors. I'll leave the survey open for a while but I'd love to have a couple hundred responses from neighbors by Monday, but have only 68.

Thanks,
David Wood, Ph.D (first speaker in FAVOR of the Greenway on Monday).

These are amazing **Chats** and I understand the emotional feelings that surround one's home and

neighborhood. There are probably amazing birds out there. Sometimes the full truth is hard to find. The fact that one area can test negative for contaminated soil and a few feet away it tests positive is the challenge. Not every foot can be tested. If the plots were individually tested then good. I assume that was done.

I trust the government agencies on many issues while this is one of the most complicated problems/issues. The government has made some poor decisions
In the past, both unintentionally and from lack of adequate information/data. (I read some newspaper articles from the 50s & 60s).
Blessings and Enjoy your home.

Are you talking about the July 15 Study Session? I watched it on Facebook. It was long, but in no way contentious. The speakers were experts in their fields. They did not speak from emotion, but with facts. The Study Session can be found on Facebook. Before signing the petition, watch the July 15 Study Session. Also, for anyone not familiar with the Rocky Flats Nuclear Weapons Plant (aka Rocky Flats Wildlife Refuge), PBS aired an excellent documentary entitled Colorado Experience Colorado's Cold War. It is still available on line.
