

Brief bibliography for 4-page flyers of April 2024

D. M. Wood, Emeritus Associate Professor
Department of Physics, Colorado School of Mines

April 7, 2024

Some graphics in the flyers already have references.

More details can generally be found in documents on rockyflat-neighbors.org. Links in the text generally point to the web page containing the relevant document (not necessarily present as of April 2024, but expected soon).

Page **(A)**: Soil radioactivity and plutonium properties

- Front Range city data: [1], [See Appendix A](#)
- NIST soil standards: [2], [3]. See [What's in Rocky Flats soil—Answers from NIST](#).
- [Background radiation measurements on Refuge: brief](#); [Background measurements on Refuge: detailed](#)
- Old DOE and 2019 recent measurements (Jefferson Parkway, Fish&Wildlife, Ketterer's hot particles); how to include hot particles in total soil radioactivity. [Recent measurements within the Refuge](#).
- Properties of Pu: [web page](#). Coming soon: *Radiation and dose overview around Rocky Flats*.

Page **(B)**: Framework for radiation dose and risk, ICRP, RESRAD results, the large Jefferson Parkway hot particle

- International Commission on Radiological Protection [4], [5], [6], [7], [8], [9]
- RESRAD [10], [11], [12], [13], [14]
- The Jefferson Parkway hot particle: [hot particles in general, the Jefferson Parkway hot particle](#)
- Ketterer data: Request from me; the rights to this work for hire apparently remain with the Rocky Mountain Peace and Justice Center so it will not be published.

Page **(C)**: Radiation releases, dependence of plutonium on depth, cancer epidemiology; false claims

- Soil plutonium and depth: See references in graphics.

- Radiation releases over time: ChemRisk 1992 (document source unknown)
- Rocky Flats epidemiology: [15], [16], [17], [18], [19], [20], [21], [22], [23], [24]
- General guidelines on epidemiology: [25]

Page ①: Remarks on statements made by anti-nuclear activists at the Westminster City Council meeting of March 11, 2024 [video](#)

- Alesia Casey (Rocky Mountain Greenway sampling): See [links here](#) for results from Jefferson Parkway sampling. The most detailed information is [here](#) and more will come when a document is completed.
- Jon Lipsky and Pu at depth: See p. ③
- Giselle Herzfeld and ‘most toxic substance’: [26], [27], [28], [29], [30]
- Deborah Segaloff, tracking Pu to Rocky Mountain National Park: [31], [32]
